

Code หน้า 56

```
#include<stdio.h>
void greeting(void);
int main (void)
{
    greeting();
    return 0;
}
void greeting(void)
{
printf("Hello World\n");
return;
}
```

Code หน้า 103

```
#include <stdio.h>
#include <conio.h>
int main(void)
{
    clrscr();
    int i;
    int readNum;
    int numPrinred;
    int numbers[50];
    printf(" Yor may enter up to 50 integers :\n");
    printf("      How many would you like to enter?");
    scanf("%d",&readNum);
    if(readNum>50)
        readNum=50;
    printf("\n Enter your number :\n");
    for(i=0;i<readNum;i++)
        scanf("%d",&numbers[i]);
    printf("\n Your numbers reversed are :\n");
    for(i=readNum-1,numPrinred=0;i>=0;i--)
    {
        printf("%3d",numbers[i]);
        if(numPrinred<9)
            numPrinred++;
        else
        {
            printf("\n");
            numPrinred=0;
        }
    }
    getch();
    return 0;
}
```
